Seemanta Chetana Mancha Purvottar

Activity Report for the year 2020-21

Let's know about Seemanta Chetana Mancha Purvottar

Seemanta Chetana Mancha Purvottar is a registered socio-cultural organization founded to promote awareness and protect our national borders by fostering values of patriotism and nationalism. The organization was established on the auspicious day of Ram Navami in 2008 in the district of Dhubri, Assam. Its primary focus is to contribute to the nation-building process, especially in the International Border Areas of the entire North Eastern Region, by promoting peace, amity, and development among citizens.

The organization runs several year-long scheduled programs, including Pratistha Divas, Desh Bhakti Samabesh, Bharat Mata Pujan, Raksha Bandhan, Shakti Pujan, as well as non-scheduled programs such as workshops, seminars, and appointed lectures. These activities are categorically aimed at (a) protecting international borders, (b) raising general awareness about border-related issues, and (c) supporting statutory organizations in implementing official welfare programs in these areas.

Seemanta Chetana Mancha Purvottar aims to ensure that the International Border Areas of our country remain safe and secure for the greater good of the nation.

VISION:

Our vision is to promote patriotism among all citizens of our country, with a special focus on those living in the international border areas. We strive to organize and integrate these communities with the rest of the nation for overall upliftment and to serve as vigilant protectors of our motherland Bharat's international borders.

We aim to plan and work for the economic, social, cultural, educational, intellectual, physical, health, and sporting development of people residing in these areas, eradicating social differences through traditional unity, amity, and brotherhood.

To achieve this, we will strive to eliminate wrong customs, superstitions, and any other social evils present in society by organizing various meetings, exhibitions, seminars, symposiums, trainings, etc.

We will provide educational facilities, establish hostels for underprivileged and weaker sections of society, set up libraries, and facilities for news, media, and communication, among other things as per necessity.

Our organization will also bring awareness about all the programs, facilities, grants, schemes, etc. declared by the State and Central Governments among people living in the international border areas.

We will provide training for economic self-reliance and skill development to generate and augment livelihood opportunities for people living in these areas.

We will demand construction of barbed-wire or any other high-tech wall on the '0' line along the international borders for the safety and security of our border and nation, and work to involve and integrate army, defense, military, para-military, or other security agencies and government administrations with the society for appropriate border management and national security.

We will help the Government administration in times of crisis in the border areas for the interest and welfare of the masses and strive for ensuring border security, national security, unity, and all-round development to transform our motherland Bharat into a "Vishwa Guru" once again.

MISSION:

◆ Our organization is committed to promoting patriotism and nationalism among the people of our country, especially those living in the international border areas, by organizing various plans, programs, meetings, seminars, symposiums, exhibitions, activities, sports, village-meetings, charities, services, etc. Our goal is to work in an integrated way with security agencies, government administrations, and society for border security, national security, self-reliance, all-round development, and unity among the people of our motherland Bharat, with the motto "Vyakti Nirman to Rashtra Nirman."

◆ We organize five fixed public programs every year, including Foundation Day, Raksha Bandhan (World Brotherhood Day), Shakti Pujan on Vijaya Dashami, Birth Anniversary of local 'Maha Purush', and 'Bharat Maata Pujan' on 26th January.

◆ We also organize regular activities such as a weekly sports and physical-health discussion event to develop committed youths in a conducive social environment, and a weekly village meeting for elders to bring awareness and create a sense of our organization's vision and spirit for greater social security and development. We also organize sports, village meetings, and at least three public programs out of the fixed five as mentioned above in a center place of few (4 to 5) villages having economical, educational, and cultural presence as "Shakti Kendra" and appoint a coordinator and co-coordinator by the Sector Committee for appropriate coordination and unity among such villages.

◆ We also establish, organize, perform, conduct, or run the following service activities on a regular basis or as per the requirement of each area from time to time: school, free coaching, or educational training; health check-ups or medical health camps; activities focused on developing self-reliance by providing training on various subjects like handicraft, stitching, skill development, pre-recruitment coaching camp, etc.; and "Sanskaar Kendra" (Cultural Center) for children and to hold regular discussions in such centers.

◆ We organize intellectual meets, discussion forums, seminars, symposiums, exhibitions, orations, talks, etc. based on the main subjects mentioned above to make a nationwide public consensus for the larger interest of our great nation.

On the occasion of Seemanta Chetana Mancha Purvottar's 2nd Foundation Day on April 2, 2020, a Sankalpa was taken to begin COVID-19 relief efforts by distributing ready-to-eat meals to frontline workers such as para-medical staff and police personnel. Mananiya Pradeepan ji and Dr. Pratima Neogi (NE President) were present during the distribution. The organization aimed to protect people affected by the lockdown and COVID-19. The government had requested help for stranded people from Tripura who were in Guwahati, and SCMP concentrated their efforts on providing food packets to them.

As the situation worsened, people not only faced food shortages but also a lack of medical facilities. To address this issue, SCMP, in collaboration with 15 doctors, started a medical helpline

named "Doctors are available online" from April 18, 2020. With each passing day, all districts, sectors, and gram samitis of Seemanta Chetana Mancha Purvottar joined hands to help people as corona warriors through various activities.
